Re: Boiler condensate return tank replacement

Dear potential bidder,

We are releasing for bid condensate return tank replacement related to the renovation of a portion of the former Tennessee Preparatory School campus located in the 1200 block of Foster Avenue in Nashville, Tennessee. The subject structure was built in 1941 and encompasses approximately 28,000 square feet. Part of the facility was previously occupied by Nashville State Community College. The site is now used as the permanent home for STEM Preparatory Academy.

Background

Founded in 2011, STEM Preparatory Academy is Nashville's first public charter school specializing in science, technology, engineering and mathematics. It is a fifth- through eighth-grade middle school that provides a rigorous college preparatory curriculum. For the 2013-2014 school year, we enroll approximately 300 students in grades five through seven and will add eighth grade next year.

Scope

- Replace broken boiler condensate tank located in crawl space
- Materials to remove the old tank out of the pit and install the replacement tank
- Minor re-piping
- Startup and operational check on condensate return system and boiler
- Confined Space Safety Procedures and Equipment are Included in Compliance with OSHA

Instructions

Bids should be emailed to cwilliams@stemprepacademy.org by 12:00pm January 24, 2014. STEM Prep reserves the right to reject any bid and is not obligated to accept the lowest bid.

The contact during the bidding process is:

Charlie Williams
STEM Preparatory Academy
1162 Foster Ave.
Nashville, TN 37210
